

# n8n Builders Challenge

Hackathon · Ho Chi Minh City

Saturday, 19 Sep 2026 · 09:00–12:00 · MindX Technology School

# What is n8n?

n8n (pronounced "*n-eight-n*") is an AI workflow automation platform. Connect your apps, add AI, and let repetitive work run itself by linking nodes on a visual canvas.

## Trigger

Something happens: a new email, a form submission, a webhook or a schedule. The workflow starts.

## Process

Nodes fetch, filter and transform data. Drop in an AI Agent to read, reason and decide.

## Act

Post to Slack, update a Sheet, create a CRM record. Automatically, every single time.

# Why Start with n8n?

Simple enough to see.

Powerful enough to ship.

Start with drag-and-drop. Add code when you need it. Your first workflow can run in minutes.

## 500+ Integrations

Ready-made nodes for Google, Slack, Notion, OpenAI and more. HTTP Request covers any other API.

## AI-Native by Design

Build AI agents, RAG and multi-agent flows. Swap LLMs without rebuilding.

## Open & Self-Hostable

Fair-code with 200K+ GitHub stars. Use n8n Cloud or run it on your own Docker or Kubernetes.

# The n8n Ambassador Program

Community leaders who represent n8n locally and globally. Interested? Apply at [n8n.io/ambassadors](https://n8n.io/ambassadors)

## Host & Teach

Run meetups, workshops and hackathons, just like today's challenge.

## Share Expertise

Publish templates, tutorials and real-world use cases for everyone to reuse.

## Connect People

Be the face of the local community, linking builders, companies and the n8n team.

# Meet Your Ambassador

## Trung Tran

Official n8n Ambassador · Ho Chi Minh City

n8n Creator since April 2025 and official ambassador since June 2026. Here to help you build your first (or fiftieth) workflow.

### #44 n8n Creator Worldwide

Ranked among the top n8n Creators globally, creating since April 2025.

### 35+ Published Templates

Ready-to-use workflows on the official n8n template library, free for everyone.

### AI Application Builder

Builds AI agents and automations that make it to production.

The Hackathon

# n8n Builders Challenge

2 hours · 10 business briefs · teams of 2-4

# Saturday, 19 September: Agenda

MindX Technology School, 9F International Plaza, 343 Pham Ngu Lao, District 1. Free entry · mentors on the floor all morning.

## 09:00 Check-in

Badge pickup, coffee and networking.

## 09:15 Kick-off

Rules explained and three business briefs revealed.

## 09:30 Build

Teams of 2-4 build n8n workflows with mentor support.

## 10:40 Demos

Each team gets four minutes to demo live to the judges.

## 11:40 Results

Prizes, then wrap-up and group photo at 12:00.

# How the Challenge Works

## Before You Build

- Bring a laptop + n8n Cloud or self-hosted n8n
- Form teams of 2-4 (pre-formed teams welcome)
- Pick one of the three business briefs
- Stuck? Grab an on-floor mentor anytime
- New to n8n? Ask for a quick walkthrough
- Aim for a workflow that actually runs

## Judging & Demo

- Usefulness: solves a real business problem
- Completeness: works end-to-end
- Shipping feasibility: could go live soon
- Four-minute live demo, show it running
- Winning templates shared with the community
- Learn from each other and have fun

# What's Next: Meet Offline Every 2 Months

## Bi-monthly offline meetups

The n8n Ho Chi Minh City community meets in person every two months (hackathon, workshop, meetup and more....).

## Talks, demos & build sessions

From your first workflow to production AI agents, for newbies and veterans.

## Stay in the loop

Follow our Luma page and join the community group to catch the next date.

Thank you! Now let's build.
